

Our internship program ensures students get the hands-on training necessary for successful careers in the landscape industry. Interns have told us they learned as much in a summer as in a whole year of school and their experience confirmed they had made the right career choice.

Designing

"I would like to extend my gratitude for the excellent experience I had working with all of you at Hidden Lane. I learned so much and had a great time."

Andrew, Penn State

Site Analysis

"I was given the opportunity to gain experience doing everything from measuring to drafting. I especially appreciated the opportunities I was given to work on designs."

Jessica, U. of Maryland

Job Layout

"My internship at Hidden Lane has been crucial to my development as a landscape architect. I learned how to use a transit, went on client meetings and learned a lot about plants. I woke up every morning excited to be going to work!"

Shane, Virginia Tech

Construction

"I got to work on job costing, went on sales presentations and gained experience in construction and equipment operation. Everyone at Hidden Lane took the time to teach me in a positive way."

Travis, Colorado State U.

INTERNSHIPS
